

T6: Making the most of cis-regulatory annotations for genome-scale analysis

A practical day for moving from epigenomic evidence to reusable regulatory annotation workflows.

ECCB 2026 Tutorial

03/09/2026

Feedback survey

We appreciate your honest feedback – they help us improve our courses for future participants!

Citing the resources

- Follow the [ENCODE citation guidelines](#)
- Follow the [IGV citation guidelines](#)
- Ensembl Regulation pre-print:
- Ilsley, G.R., Branco Lins, P.R., Merino, G.A., Urbina-Gómez, D., Harrison, P.W., 2026. [Ensembl's regulatory annotation for human, mouse, livestock, and aquaculture species](#). <https://doi.org/10.21203/rs.3.rs-8007521/v1>
- Cite Ensembl's most recent paper:
Yates AD, Austine-Orimoloye O, Azov AG, et al. [Ensembl 2026](#). Nucleic Acids Research. 2025 Nov;gkaf1239. DOI: 10.1093/nar/gkaf1239. PMID: 41296548.

Hosting an Ensembl-specific training course

Browser course

One-day course on the Ensembl browser, aimed at wet-lab scientists.

We can teach an Ensembl course at any institute for free (plus trainers' expenses in high-income countries).

Train-the-trainer course

One-day course on delivering bioinformatics training and teaching your own Ensembl browser course.

Visit the [Ensembl Training website](https://training.ensembl.org) or [email us](#) for more information.

Acknowledgements and funding

Funded by
Wellcome

Biotechnology and
Biological Sciences
Research Council

25th European Conference on Computational Biology
31 August - 4 September 2024
Geneva, Switzerland

Funded by the European Union
Horizon 2020
Horizon Europe Programme

EMBL

We would like to acknowledge the National Genome Research Institute (NHGRI) for funding the following grants supporting the creation of the human pangenome reference: U41HG010972, U01HG010971, U01HG013760, U01HG013755, U01HG013748, U01HG013744, R01HG011274, and the Human Pangenome Reference Consortium (BioProject ID: PRJNA730823) as well as 2U24HG007497-09 which supports the creation of HGSVC resources
